Legal & General Future World ESG Developed Index Fund Unit Class I GBP Income - ISIN: GB00BYWQWX01

The authorised fund manager of the Fund is Legal & General (Unit Trust Managers) Limited (the "Manager").

OBJECTIVES AND INVESTMENT POLICY

- The objective of the Fund is to track the performance of the Solactive L&G Enhanced ESG Developed Markets Index NTR, the "**Benchmark Index**" on a net total return basis before fees and expenses are applied. Fund performance may differ from the Benchmark Index due to the deduction of fees and expenses and the impact of any tracking error factors.
- The Fund replicates as closely as possible the constituents of the Benchmark Index by investing at least 90% (directly or through depositary receipts (a certificate issued by a bank representing shares in a foreign company such as American depositary receipts and global depositary receipts)) in the shares of companies that make up the Benchmark Index and in similar proportions to their weighting in the Benchmark Index.
- The Benchmark Index is comprised of shares in companies that are incorporated, headquartered or which have their principal business activities in developed countries.
- The Benchmark Index is designed to increase exposure to companies that demonstrate good environmental, social and governance ("ESG") efforts and targets an annual reduction in its overall carbon emissions.
- This means the Fund will invest more in companies that score well against the Manager's proprietary ESG criteria, and less in companies that do not. The Benchmark Index will be rebalanced twice a year.
- The Benchmark Index will exclude companies from sectors the Manager considers incompatible with good ESG criteria. The Benchmark Index methodology may change over time as the Manager's ability to evaluate ESG criteria changes.
- The Manager may exclude shares in companies from the Fund which do not meet the Manager's "Climate Impact Pledge", in order to encourage strong governance and sustainable strategies. The number of companies excluded could be limited by the target tracking error.
- The Fund may invest in shares in companies which are reasonably expected to become part of the Benchmark Index or are an alternative to a constituent of the Benchmark Index.
- The Fund may also invest in money market instruments (such as treasury bills), depositary receipts, cash, deposits and collective investment

- schemes, including those managed or operated by Legal & General.
- The Fund may use derivatives (contracts which have a value linked to the price of another asset) for efficient portfolio management purposes to:
 - reduce risk or cost; or
 - generate additional capital or income with no, or an acceptably low, level of risk.
- An up-to-date overview of the Benchmark Index, including excluded sectors is available on Solactive's website: https://www.solactive.com/downloads/Solactive_LG_Enhanced_ESG_Methodology_Summary.pdf > **Solactive L&G Enhanced ESG Methodology**
- A summary of the Manager's Climate Impact Pledge is available at: <http://www.lgim.com/climate-impact-pledge> > <http://www.lgim.com/climate-impact-pledge>

RISK AND REWARD PROFILE

Lower Risk ← Higher Risk
Potentially lower rewards ← Potentially higher rewards

1	2	3	4	5	6	7
---	---	---	---	---	---	---

- The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is not guaranteed to remain the same and may change over time. It is based on historical data and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table above shows the Fund's ranking on the Risk and Reward Indicator.
- The Fund is in category 6 because it invests in company shares which are sensitive to variations in the stock market. The value of company shares can change substantially over short periods of time. Company shares are generally considered to be higher risk investments than bonds or cash.
- Even a fund in the lowest category is not a risk free investment.
- The value of your investment and any income you take from it may fall as well as rise and is not guaranteed. You might get back less than you invest. Further information on the risks of investing in this fund is contained in the

Prospectus available at www.legalandgeneral.com/reports.

The risk and reward indicator may not take account of the following risks of investing in the Fund:

- The Fund has a sustainability and/or ESG focus in its investment process which may i) limit the Fund's exposure to or exclude certain companies, industries or sectors ii) impact the Fund's investment performance compared to other funds that do not apply such criteria and, iii) differ from an investor's own sustainability and/or ESG criteria.
- The Fund may have underlying investments that are valued in currencies that are different from GBP. Exchange rate fluctuations will impact the value of your investment. Currency hedging techniques may be applied to reduce this impact but may not entirely eliminate it.
- Derivatives are highly sensitive to changes in the value of the asset on which they are based and can increase the size of losses and gains.
- The Fund could lose money if any institutions providing services such as acting as counterparty to derivatives or other instruments, becomes unwilling or unable to meet its obligations to the Fund.
- Where companies in the Index are excluded from the Fund as a result of the Climate Impact Pledge, this may affect the ability of the manager to closely track the performance of the Index.

The Fund manager calculates a single price for this Fund based on the mid-point between the buying and selling prices of the Fund's assets. In certain circumstances, the Fund manager can adjust this price to account for whether there is more money going into or coming out of the Fund. This is called a 'dilution adjustment'.
