

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

NT Global Bond 1-5 Years Select Index Fund (the “Fund”) Share Class A GBP Hedged Accumulating

A sub-fund of Northern Trust Investment Funds plc

ISIN: IE0007VMUEP2

Management Company: Northern Trust Fund Managers (Ireland) Limited (the “Manager”)

Objectives And Investment Policy

The investment objective of the Fund is to track the risk and return characteristics of the Solactive Global Bond 1-5 Years ESG Climate Index (the “Index”).

The Fund invests primarily in freely transferable Debt and Debt Related Securities including investment grade bonds that are constituents of the Index. The Fund may also invest in investment grade bonds that are not included in the Index that are deemed by the Investment Manager to exhibit similar characteristics to securities in the Index and that have a similar risk profile. The Index excludes securities that do not meet certain Environmental, Social and Governance (ESG) criteria and companies that are in breach of UN's Global Compact Ten Principles.

For further details on the UN Global Compact principles, please refer to www.unglobalcompact.org/AboutTheGC/TheTenPrinciples/index.

Target Market: This Fund is appropriate for investors who plan to invest over the short to medium term; and are looking for a passively managed investment in the relevant market(s) ESG principles implemented according to a defined set of exclusions as well as certain defined ESG criteria. Recommendation: This Fund is appropriate for investors who plan to withdraw their money within a 1-5 year timeframe.

The Fund is an index tracking Fund and seeks to track the risk and return of the Index by buying a representative subset of the bonds in the index. This means it may not hold all the same assets as the Index or hold assets in the same proportion as the Index, and the fund may not match the Index performance. The Solactive Global Bond 1-5 Years ESG

Climate Index measures the performance of worldwide bonds issued by central government, government-related, corporates and structured debt securities with a fixed rate.

The Manager considers that the Fund meets the criteria in Article 8 of the Sustainable Finance Disclosure Regulation (Regulation EU/2019/2088) to qualify as a financial product that promotes, among other characteristics, environmental or social characteristics.

More information on this products sustainability factors can be found in the Supplement and on our website at www.northerntrust.com/europe/-what-we-do/investment-management/sustainable-finance-regulation. For efficient portfolio management purposes, the Fund may invest in derivatives and other financially linked instruments (such as currency forwards and exchange traded futures) to reduce risk, minimise costs or generate additional capital or income. A derivative is a financial contract whose value is derived from other assets.

This share class is hedged. The Fund will enter into certain currency-related transactions in order to seek to hedge out currency risk relevant to the Class. The hedging strategy may not completely eliminate currency risk and, therefore, may affect the performance of your shares.

You can buy or sell shares daily (on each business day of the Fund). Instructions must be received by the Fund's administrator before 3.00pm (Irish time) on the business day prior to the relevant dealing day. The base currency of the fund is U.S. Dollar.

Shares will be accumulating shares (i.e. income will be included in the value).

Risk And Reward Profile

- Historical data may not be a reliable indication for the future.
- The risk category shown is not guaranteed and may shift over time.
- The lowest category does not mean 'risk free'.

The risk indicator was calculated incorporating historical data and may not be a reliable indication of the future risk profile of the Fund. The rating is based upon changes in prices of the debt instruments held by the Fund.

The Fund will invest in debt instruments contained in the Index, which experience rises and falls in value.

The value of the debt instruments fluctuate depending on prevailing interest rates, credit ratings and market conditions.

Performance volatility can be increased or reduced due to fluctuations in the currencies represented within this document.

The following risks are material in addition to the risks captured by the indicator above:

Liquidity Risk – Lack of a ready market or resale restrictions may limit the Fund's ability to sell a security. Where the Fund invests in illiquid

securities or does not trade in large volumes, the bid offer spreads may widen. Illiquid securities may trade at a discount and may affect the ability to meet redemptions on a timely basis.

Credit Risk – A borrower or a counterparty may fail to repay or otherwise fail to meet contractual obligations to the Fund.

Investment Risk – The Fund may not achieve its investment objective. An investment in the Fund involves investment risks including possible loss of the amount invested.

Issuer Risk – The issuer of a bond held within the Fund may not be able to meet its obligations to the Fund.

Currency Risk – Where a class of shares are in a currency other than the base currency of the Fund, the non-base share classes of the Fund may be affected unfavourably by fluctuations in currency rates.

Valuation Risk – A position in the Fund may be valued incorrectly, as some prices may be uncertain at a point in time.

Hedging Risk – Gains/losses on and the costs of currency hedging strategies are intended to accrue solely to the relevant Class. Currency hedging may be imperfect and generate a difference between the performance of the Index and the share class performance.

Hedging Risk – The Fund may be exposed to unexpected rises and falls in value due to exchange rate movements.

Political Risks – The performance of the Fund may be affected by changes in economic and market conditions due to political developments and changes in government policies.

For more information about risks, please see the section entitled “Risk Factors” of the Fund's prospectus and supplement, which are available at www.northerntrust.com/europe/-what-we-do/investment-management/pooled-funds
